

CHALKOS
GROUP
FOODTECH SOLUTIONS

Job Opportunity: Technical Associate (Field Technician)

- **Company:** CHALKOS Group (CXG) | Distribution & Technical Support of Packaging Machinery
- **Candidate Location:** Athens, Northern Greece, or Peloponnese (flexibility for travel required)
- **Work Mode:** Remote, with frequent travel across Greece
- **Languages:** Excellent command of Greek & English (Spanish, French, or Italian is a plus)
- **Start Date:** September 2025
- **Compensation:** Competitive salary + performance bonus (based on experience & qualifications)

Company Overview: – CHALKOS Group (CXG)

CHALKOS Group (CXG) is a **family-owned company** based in Athens with an international outlook, and the natural evolution of ABC Technologies – IOANNIS CHALKOS LTD in Greece.

With 20+ years of experience, we provide **advanced food technology solutions across Greece and Cyprus**. Through strategic partnerships with leading global brands and strong local expertise, we deliver measurable value **for fresh produce exporters and packaging facilities**.

We exclusively represent top international manufacturers, offering high-performance solutions that include:

- **Innovative Machinery & Spare Parts** for processing & packaging ([MAF RODA AGROBOTIC](#), [STRAUSS](#), [SACMI](#))
- **High-quality Spare Parts & Consumables** ensuring reliability and consistency ([GIANCOL](#), [GRAZIANI Packaging](#))
- **Expert Technical Support & After-Sales Service** to ensure uninterrupted operations

Our mission: To bridge innovation with food processing — helping the agri-food chain become stronger, smarter, and more sustainable by turning challenges into scalable, efficient solutions.

Our advantage: A specialized team, fast response times, and a reliable partner network. With strong local presence and international expertise, we deliver world-class technology with immediate on-site support — minimizing downtime and maximizing productivity.

The Role: Technical Associate (Field Technician)

This is a strategic hire — a remote, hands-on opportunity to contribute to the growth and development of CXG's Technical Department.

You will play a key role in installation, maintenance, and after-sales support, gaining direct exposure to advanced robotics and automation systems in food technology. Working alongside experienced professionals and international partners, you will help set the standards for our expanding technical team.

CHALKOS GROUP

FOODTECH SOLUTIONS

Key Responsibilities:

- Regular communication with technical departments of the manufacturers we represent
- Installation of complete sorting and packaging lines for fresh produce
- Commissioning of advanced optical systems (e.g. multispectral cameras) and other packaging machinery
- Preventive maintenance, on-site diagnosis, and troubleshooting
- Reading & interpreting electrical schematics and maintaining technical documentation
- Supporting customer training (operation & basic maintenance) and preparing service reports
- Gathering and reporting technical observations and feedback for continuous service improvement

Desired Profile

- Strong communication, teamwork, and professional presentation skills with a customer-oriented mindset
- Excellent command of Greek & English (French, Spanish, or Italian is a plus)
- Degree in Electrical/Electronic Engineering or a related field (e.g. Computer Electronics, Robotics, Industrial Design & Production, Automation, Industry 4.0; mechanical background is an asset)
- 1–3 years of experience in machinery installation/commissioning, maintenance, automation, or technical support
- Knowledge of AC/DC systems, PLCs, pneumatic systems, and ability to read technical documentation
- Valid driver's license

Why Join us?

- Collaborate with Europe's leading manufacturers and global leaders in food technology solutions
- Be part of a dynamic and innovative team
- Excellent opportunities to develop technical skills through hands-on experience
- Advanced training at the facilities of our international partners in Spain, France, and Italy
